FOCH FORESAW WAR WITH HUNS

Letter Reveals That French Chief and Briton Laid Plans Early.

LONDON, April 9. (British Wireless Service.)—That Marshal Foch foresaw the danger before the outbreak of the war of German aggression is indicated in a letter which he has sent to London to be read at a dinner which the members of the house of parliament are to give soon after Easter in honor of Gen. Sir Henry Wilson, chief of the Imperial general staff. Marshal Foch says:

"Long before the war Gen. Wilson and I worked together to prepare for the struggle against the German peril which we both foresaw. It is due to the success of his mobilization arrangements and his careful and detailed plans for transporting troops that the British army was able to arrive quickly on the field of battle as soon as the government had come to a decision. During the war, in the most anxious days, especially those of 1917 and 1918, how often it was almost every day, sometimes every night—we worked together to strengthen as rapidly as possible a weak spot in the link to combine our efforts to reinforce our hard-fought armies, and once again to enable them to go forward with the most confidence. These memories, still so fresh in my mind, I can see him always before me as one of the most capable, most loyal and most valiant soldiers of the allied forces and one of the greatest servants of his country."

FRENCH PILOT PLANS TO TRY TRANS-OCEAN FLIGHT

VERSAILLES, April 9. (By the Associated Press.)—Lieut. Jean Pierre Fontan started on a flight yesterday to Casablanca, Morocco, from which town he will proceed to Dakar, in the French colony of Senegal, and thence to the Cape Verde Islands with the intention of attempting a flight across the Atlantic from the islands. He is accompanied by Mechanician Philibert Carouet.

A dispatch from London under date of March 13 said that according to reports from Paris, Lieut. Fontan left Villacoublay for Dakar on March 16, but was compelled to land south of Blois because of a cracked cylinder. He planned a flight from Dakar to Pernambuco, Brazil. The distance from the Cape Verde islands to Pernambuco is 1,616 miles.

The performance was in a small suburban theater which never before had been visited by royalty. Cabinet ministers and members of parliament attended. This was the first appearance at a theater in a long time.

FOR TIGHTNESS IN THE CHEST

Thedford's Black-Draught, Says Kentucky Lady, Is Excellent for Breaking Up a Cold.

Elgin, Ky.—Mrs. Albert Albright, who has lived here many years, says: "I use Black-Draught as a laxative. It is splendid for breaking up colds. I have used it for a bad cold and tightness in the chest. One cup of good warm tea made from Black-Draught I found most helpful. It makes the liver act and gives almost instant relief."

This spring my little daughter began having chills, the hard, shaking kind. After the chills her fever would rise and her head would ache. We are a good way from the doctor, so I just began giving her good doses of Black-Draught and it cured her. She is in good health, has a good color, and her appetite is all right. So of course we consider Black-Draught as unsurpassed for a family medicine."

Don't wait until you have headache, sick stomach, indigestion, or other disagreeable symptoms, but take an occasional dose of Black-Draught to keep your system free from poison, your body in good health.

Made from purely vegetable ingredients, Black-Draught acts in a gentle, natural way, and has no bad after-effects. It may be safely taken by young and old.

Try Thedford's Black-Draught. Adv.

Dress the Part You Play "DRESS UP"

With the prospect of an enduring peace comes the bigger reconstruction problems. America is the leader of the world commercially. We must play a new part—and play it with the same vim, intelligence and efficiency we played the war part.

During the war it was the proper thing to wear shabby clothes. That was patriotic. It meant the saving of labor for munitions factories—the saving of materials to clothe our soldiers.

With peace we must discard war-time clothes and be ready for the era of greater prosperity. Our home and foreign markets are hungry for American made products—new factories—new distributing agencies are daily developing. All this means that our country—each and every one of us—is destined to far greater prosperity and self-advancement. Are you ready? Are you dressed to play your part? Let your friends, neighbors, fellow workmen and business associates know that you are alive to the times—that you are prepared to take your place in America's greater business life. The well-dressed man is better fitted to "put it over" and get ahead. See that your wardrobe is replenished this week so you can reflect your ability and self-confidence. Dress the part you play.

AMERICAN VETS FINALLY LANDED

Controversy With British Holds Men Upon Liner for Day at New York.

NEW YORK, April 9.—After virtually being held prisoners for an entire day on the Cunard line steamship Mauretania because of a disagreement between American immigration officials and the British military authorities, 2,700 war veterans, the majority of them Americans, who had served with the British army, were allowed yesterday to leave the vessel, which docked here Monday afternoon.

The troops had entered port with 700 of them whose homes are in this city expecting to be allowed to land at once. Instead, they were transported to Camp Mills, with the others, late yesterday, to await settlement of the controversy. The British military officials in England had sent these veterans across the ocean as repatriated troops, the British understanding that no manifest list was necessary for the ship. When the Mauretania arrived here, however, the federal immigration authorities demanded such a list. None had been presented and the troops were not allowed to go ashore. Without this list, the immigration officials maintained, the troops must be classified as aliens until their citizenship was proven.

The returning soldiers fought on many fronts. Some went into action in advance of their country's entry into the war. Others, prevented for various

ITCH!

A WAR-TIME ILL THAT'S SPREADING HUNT'S SALVE CURES IT!

BRED in the war trenches of Europe, a wave of ordinary ITCH is spreading over the country. This skin disease, history shows, has always prevailed, following wars and the concentration of armies. It was common during the Civil War and following that conflict. There was an epidemic of the itch after the Spanish-American War. Now history is repeating itself after the great European struggle.

Returned soldiers and those with whom they come in contact will find a recognized remedy for the Itch in Hunt's Salve, commonly known as "Hunt's Itch Cure." Many a veteran of the late '90's will testify to its merits. If directions are followed HUNT'S SALVE will prove a never failing cure for all forms of the Itch, and your druggist will tell you so. He sells HUNT'S SALVE under a strict guarantee to refund the purchase price to any dissatisfied user.

A Medford, Oklahoma man, among thousands who praise HUNT'S SALVE, says: "Some people dislike to call it the Itch, but candor compels me to admit I had it badly. Your Hunt's Salve, however, cured me after many other remedies had totally failed. One box completed the cure—the first application afforded wonderful relief. My advice to those who have to scratch, is to use Hunt's Salve."

Hunt's Salve is especially compounded for the treatment of Itch, Eczema, Ringworm, Tetter and other itching skin diseases and is sold on our guarantee by all reliable drug stores, or it will be sent direct by mail if your local druggist cannot supply. Price 75c per box.
